## **Design Technology Year 9**

Prior Learning												
You have learned about electronics and developing knowledge of how to construct a												
circuit. You had advanced your skills in design, combining your woodwork skills for												
example. cutting and finishing woodwork with electronics.												
We will be learning about												
During this rotation, you will be designing your a product using sustainable sources. You												
will develop knowledge of already existing products and use your skills in design, cutting,												
shaping and finishing to create a sustainable product. They will develop hand tool skills												
with the ability to continuously test their accuracy through quality control checks. This												
project will allow pupils to create an upcycled product and develop problem solving skills												
when assembling and testing the product.												
Lesson	Key Learning							Homework				
Lesson	Project introduction								Product Research			
1&2	Understanding the market											
Lassan	Lifecycle analysis of a pallet											
Lesson 3&4	Lifecycle analysis of a pallet     Sustainability Resear									kesearch		
304	<ul> <li>Investigating the design context</li> <li>Writing a design brief - Specification</li> </ul>											
Lesson	Writing a design brief - Specification     Drawing techniques     Retrieval- Prior											
5&6	5 1							knowledge check quiz				
ASSESMENT POINT 1 - Investigate & Design									vicuge che	ck quiz		
Lesson												
7&8	Manufacture of product									ing test		
									Learning- L	g- Learning		
9&10									about designers			
Lesson	Making product – Cutting individual pieces								Literacy- Spellings (key			
11&12Finish product - Evaluationwords)												
ASSESMENT POINT 2 - Make & Evaluate												
Lesson 13&14	Modelling challenge     End of project.											
Key Vocabulary												
Sustainabili	ty Natura Drill E			Fr	gonomics	Standard	Manufactu	ring	Quality	Assembly		
Custaniasii	L.Y	I wood			gonomics	components	Manalacta	1115	Control	7.55cmbry		
		TWOOD	Dit		Fut	ure Learning	T		control			
<u>GCSE Product Design-</u> <u>Careers:</u> Product Designer, Architect, Software Engineer,												
designing your own product Civil Engineer, Website Designer, Interior Designer, Games												
against a brief. Designer and many more												
Homework guidance												
Students are given homework at regular intervals at least every two weeks throughout the project. The												
homework tasks are shared on synergy for both parents and students to access.												
How can you help?												
Parents can support their child in DT by talking to them about the project they are undergoing and encouraging												
					-	, their practical p						
						students are pro						
homework tasks. Many homework tasks can be researched by using google but there are some good sites which												
are free to access such as: 'Technology student com' and 'Mr D & T'.
